

# Social Distancing Taiwan

衛生福利部疾病管制署

Taiwan Centers of Disease Control (Taiwan CDC)

## Stay Safe, Keep Your Family Safe

The Taiwan Social Distancing App was developed by the Taiwan AI Labs in cooperation with the Executive Yuan and the Taiwan Centers for Disease Control in order to reduce the likelihood of disease transmission and keep people safe.

## Privacy and Data Protection

Taiwan Social Distancing App use is anonymous - users do not need to register and no user data will be collected. The only form of data transmission involved is the observation of Bluetooth signals between handheld devices to calculate the distance between each user.

User privacy will be ensured via decentralized storage of anonymous IDs for individual devices; contact data will be compiled by each respective device.

## Reduce the Spread of Pandemic

Users who have tested positive can choose to anonymously publish their device's anonymous IDs. When users with a positive test publish their results, people who have been in proximity to this device and maintained contact for a certain period of time will receive a notification. This process guarantees the anonymity and personal privacy of those who share their positive test results while contributing to keeping our communities informed and diligent in taking preventative and cautionary measures.

GET STARTED

**Exposure Notification is not enabled**

Click the button below to enable exposure notification for possible contact with COVID-positive persons.

**ENABLE EXPOSURE NOTIFICATION**

**No contact with registered positive tests**

Please continue to maintain social distancing.

**NOTIFICATION IS ENABLED**

Exposure Notification operating ratio 100%  
Since enabled at 5/20/21 11:00 PM  
Last checked at 6/4/21 10:51 AM

## You have been in proximity with registered positive tests

- **Stay Calm:** You have been identified as a close contact of a confirmed COVID-19 case, but that does NOT mean you are a confirmed case.
- **Self-Health Management:** We advise you to conduct self-health management and be aware of your health conditions.
- **Health Conditions:** If you have fever or respiratory symptoms, please contact your local health agency, or dial the toll-free hotline "1922" for testing arrangement.

NOTIFICATION IS ENABLED
